

Bash Street Theatre

The Strongman - Technical Requirements

Introduction

We aim to be able to perform our show in as many different places as possible. This document has been written to inform the promoter of our preferred options. It will also specify the most important points. If you are in any doubt then please contact us to discuss the matter further.

Technical contact for Bash Street Theatre is Simon Pullum

Simon can be contacted on: +44 (0)1736 360795 or mobile: +44 (0)7595219057

Technical Requirements

- Flat and level performing area of 14m x 10m, with a height of at least 6m.
- Access to performing area for unloading with onsite parking facilities - the vehicle must remain adjacent to the performing area.
- Access to mains electricity power supply, two hours before and after performance time.
- Sound check - no later than an hour before the performance.
- 24m of safety barriers to be supplied by the promoter.
- At least one steward to be supplied by the promoter.
- Show running time is 50 minutes approx.
- Get-in time is 3 hours.
- Get-out time is 2 hours.
- We have public liability insurance (indemnity £5,000,000).

Company Vehicle

- Mercedes Benz Vario 814D Panel Van
- Reg. no. YX03JWG
- Colour: Hyacinth Blue
- Length: 7.21m
- Width: 2.21m
- Height: 2.86m
- Weight: 7.5 tonnes

Performance Space

We need a clean, flat and level performing space. Clean tarmac, pavement, stage, timber or lawn is fine – but please no sand, gravel, mud or long grass.

The performance area needs to be 14m wide by 10m deep and at least 6m high. The performance space needs barriers (24m) behind and to the side of the performance area.

Access

We need vehicle access to the performance site. It is necessary to have on-site parking. The vehicle must remain adjacent to the performance site, as we use this for wet weather storage and sometimes as a changing room.

Electricity

We need access to mains electricity to power our 600 watt PA system, electric piano, lights (if required) and other touring needs. Electricity should be provided at least two hours before the performance, and up to two hours after the performance.

Bash Street Theatre

Lighting - for evening performances

When necessary, we tour halogen floodlights (8 x 300w and 4 x 500w with stands) that are sufficient for our basic needs. This would be enhanced if the promoter could provide extra theatrical lighting.

Sound

We tour with a 600 watt PA sound system for our electric piano and two microphones. This is suitable for audiences up to 600 in a quiet area. If there is a high level of sound to compete with, or if the promoter expects a larger audience, then it would be preferable if a higher specification PA could be provided.

We aim to sound check no later than one hour before the performance.

Pyrotechnics

We have not yet produced the production and we do not yet know if there will be any pyrotechnics

Wind and rain

In the event of rain or gale force winds it will be unsafe for the performance to take place.

Audience

Bench seating or carpets for the audience to sit on would be appreciated by the public and enable more people to see the show.

Bash Street Theatre

Accommodation

We require hotel bed and breakfast accommodation where there is space to park the company vehicle (7m long) and where we can arrive late at night if necessary. We require:

- One family room (comprising 1 x double bed and 2 x single beds).
- Two single rooms.

Hotel requirements:

- Space to park the company vehicle (7m long).
- Wi-Fi internet access.
- Breakfast included with, if possible, a late breakfast option.

Meals

Lunch and evening meals should be provided on performing days. All company members are vegetarian. For the performance, bottles of drinking water would be appreciated.

Marketing information

The promoter is responsible for all advertising and publicity for the performance.

The company will supply the following publicity materials:

- Text + photos - a choice of which are downloadable from the company website
- www.bashstreet.co.uk then click on <Promoter's Info>. Username and password will be provided at confirmation of contract.

The use of the photos is free only to advertise the specific performance with the photographer credited. Any further use (e.g. posters) must be agreed upon separately in advance.

After the performance the promoter will send original or high quality copies of all published press reports to the company.

Bash Street Theatre

Information to be sent before the event

Before arrival we need:

- Address and directions for the hotel.
- Directions to the performance site / contact point.
- Information about meals.
- Mobile number for contact person.
- An ag=
